GUARDACANTOS PARA AZULEJOS

Molduras para alicatados de viviendas que sustituyen a los ingletes tradicionales.

A diferencia de los ingletes, de cantos débiles y fácil rotura, con estos guardacantos se consigue la máxima protección tanto en ángulos externos como en cantos vivos.

Estas molduras plásticas están pensadas para cualquier esquina que lleve azulejo, bordes de encimera y remates, obteniendo siempre acabados perfectos. Son, por tanto, la forma más adecuada para proteger, decorar y ahorrar costes.
